

Travel London

GENDER, SEX, AND FEMINISM

Explore London as a place of great diversity, but also as a place of great inequality while learning from feminist psychologists from around the globe.

In the program, students will experience London as a global site of power and knowledge. Together, we will examine London as a place of great diversity, but also as a place of great inequality. Learning activities will combine traditional lectures and tutorials with on-site learning, guest lectures from UK-based feminist academics, walks, tours, and research opportunities. Our on-site learning activities will take place at locations such as the Natural History Museum, Houses of Parliament, Tate Modern, and the British Library. The program also includes attendance at an academic conference in London.
