## WGS Minor at MSU

The Women's & Gender Studies (WGS) Minor is available to students enrolled in Bachelor's degree programs, other than those enrolled in the BA in Women's & Gender Studies. This interdisciplinary minor provides students with in-depth opportunities to study the intersections of gender with other aspects of identity within their fields of interest, enabling them to apply such understandings through one of four specific thematic areas.

Students who wish to pursue the WGS Minor must contact the GenGen Advisor to arrange an appropriate course of study; a list of additional approved courses is maintained by the advisor. Due to the dynamic and interdisciplinary nature of our programs, it is important to meet regularly with the advisor to stay up-to-date on course/other opportunities.

With the approval of the department/college that administer the student's degree program, courses that are used to meet the requirements for the minor might also be used to satisfy the requirements for their degree.
